

Nut Driver Insert Set Gripper with Ratchet 3/8" and Adapter 3-pcs. - Wiha 20783

Item no. WH-20783

Manufacturer Wiha

EAN 4010995207830

The Gripper replaces a full nut driver set with a single insert covering 7-19 mm in both metric and imperial sizes. Its 54 spring-loaded hardened steel pins conform to any external profile, including hooks and eye bolts. The 3-piece set includes a 3/8" Gripper insert, a reversible ratchet with push-button release, and an adapter for power tools. Torque capacity up to 80 Nm.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	United States
HS-Code	82042000
Weight	0.522 kg

STANDARDS & COMPLIANCE

DIN 3120

DESCRIPTION

Standard nut driver sets fall short when it comes to uncommon fastener shapes like hook bolts or eye bolts. Wiha's Gripper solves this with 54 spring-loaded, hardened steel pins that adapt to any screw or nut with an external profile up to 19 mm, at screw heights up to 8 mm. The compact, offset design keeps fingers protected and allows torques up to 80 Nm to be applied reliably.

BENEFITS

- Replaces a complete 7-19 mm nut driver set with one universal insert
- 54 hardened steel pins conform to all external profiles, including exotic shapes
- Torque up to 80 Nm transmitted without loss via direct drive connection
- Quick and secure nut change via push-button detent retaining ball
- Non-slip ergonomic handle; offset design protects fingers
- Fine toothing on the ratchet allows work in confined spaces

TECHNICAL DATA

- Drive: DIN 3120, style C 10, 3/8"
- Working range: 7-19 mm (metric and imperial)
- Max. screw height: 8 mm
