

Dead-Blow Soft-Faced Hammer Very Hard Hickory Handle Round Face 60 mm - Wiha 39014

Item no. WH-39014

Manufacturer Wiha

EAN 4010995390143

The Wiha soft-faced hammer 8001 works without rebound thanks to a hammer head filled with cast iron balls that absorb kickback and vibration. The classic hickory wooden handle provides natural damping and a secure grip. Hammer face diameter 60 mm, overall length 420 mm, GS tested.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Poland
HS-Code	82052000
Weight	1.7 kg

DESCRIPTION

The Wiha 8001 soft-faced hammer protects both the workpiece and the user's joints: the cast iron ball filling in the hammer head fully absorbs rebound, while the hickory handle further damps residual vibration. With a 60 mm head diameter and 420 mm overall length, this is the largest model in the 8001 series - designed for the most demanding assembly and disassembly tasks.

BENEFITS

- Recoilless operation via cast iron ball filling - protects workpieces and joints
- Hickory wooden handle with natural vibration damping and lasting strength
- Very hard striking faces for powerful, precise blows without material abrasion
- Round hammer face (60 mm diameter) for maximum force transfer at highest workloads
- GS tested for verified safety

TECHNICAL DATA

- Hammer face diameter: 60 mm
- Overall length: 420 mm
- Hammer head height: 165 mm
- Dimensions: 420 x 165 x 60 mm (L x W x D)

APPLICATIONS

For recoilless striking in heavy assembly and disassembly tasks, aligning large components, and

wherever a large striking face and maximum recoil-free force are required.

Made in Poland. GS tested.
