

Torque screwdriver TorqueFix permanently pre-set 2.5 Nm - Wiha 26128

Item no. WH-26128

Manufacturer Wiha

EAN 4010995261283

The Wiha 2850 TorqueFix torque screwdriver is permanently pre-set to 2.5 Nm, ensuring precise and repeatable tightening of circular plug connectors with a hexagonal head. Accuracy is $\pm 6\%$, traceable to national standards. Includes works inspection protocol.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
HS-Code	82054000
Weight	0.125 kg

DESCRIPTION

The 2850 TorqueFix with a permanently fixed torque of 2.5 Nm prevents the specified tightening torque from being exceeded when fastening circular plug connectors with a hexagonal head. The $\pm 6\%$ accuracy is traceable to national standards, and the included works inspection protocol documents the factory calibration. The larger 36 mm handle diameter is matched to the higher torque level of this model.

BENEFITS

- Permanently pre-set torque 2.5 Nm - no adjustment needed, no errors from misset values
- Accuracy $\pm 6\%$, traceable to national standards
- Works inspection protocol included - immediately traceable from delivery
- Hexagon head 4.0 mm for circular plug connectors with hexagonal head
- Large-volume SoftFinish handle (diameter 36 mm, length 119 mm) suited to the higher torque

TECHNICAL DATA

- Torque value: 2.5 Nm (permanently pre-set)
- Tolerance: $\pm 6\%$
- Hexagon head: 4.0 mm
- Handle diameter: 36 mm
- Handle length: 119 mm
- Overall length: 125 mm

- Includes works inspection protocol

APPLICATIONS

For controlled fastening of circular plug connectors with a hexagonal head to a specified torque in quality assurance, electronics production, and measurement technology.

Made in Germany. HS code 82054000.
