

Dead-blow soft-faced hammer 70 mm, medium-hard faces, steel tube handle - Wiha 02129

Item no. WH-02129

Manufacturer Wiha

EAN 4010995021290

The Wiha 802 soft-faced hammer with a 70 mm face and 385 mm length is the largest model in the 802 series, providing maximum impact area without recoil via cast iron balls inside the hammer body. Medium-hard yellow faces protect sensitive surfaces during powerful positioning blows in heavy-duty applications. The steel tube handle with non-slip grip transfers force precisely.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Poland
HS-Code	82052000
Weight	2.571 kg

DESCRIPTION

The Wiha 802 soft-faced hammer with 70 mm face covers the heavy-duty end of the series, designed for applications requiring maximum impact area and high striking force. The cast iron ball filling absorbs recoil completely, and the around 25% greater head mass than standard ensures that even large workpieces can be precisely positioned without surface damage.

BENEFITS

- Completely recoilless operation via cast iron ball filling - protects joints even in heavy-duty work
- Medium-hard yellow hammer faces for tool and machine engineering, car repairs, sheet metal, and assembly work
- Around 25% higher hammer head mass than standard for maximum striking power with controlled impact
- Steel tube handle with ergonomic, non-slip grip for fatigue-free work
- Hammer faces available individually as spare parts

TECHNICAL DATA

- Hammer face diameter: 70 mm
- Overall length: 385 mm
- Hammer head height: 165 mm
- Product dimensions: 385 x 165 x 70 mm (L x W x D)
- Weight: 2.571 kg

APPLICATIONS

Heavy positioning blows on workpieces in machine vices and during assembly work in tool and machine engineering, car repairs, sheet metal and assembly work - wherever maximum impact area and striking force with full surface protection are required.

Made in Poland. HS code: 82052000.
