

EFS 90 ESD footrest with gas spring, non-slip, stepless height adjustment, steel frame - meychair EFS 90 ESD

Item no. ME-13209

Manufacturer meychair

EAN 4260046920199

Conductive ESD footrest EFS 90 for electrostatically protected workstations, all components dissipative to DIN EN 61340-5-1. Non-slip plastic foot plate with stepless gas-spring height adjustment. Each unit is individually measured and certified.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
ESD equipment	ESD-Fußstütze
HS-Code	94031058
Weight	6.5 kg

STANDARDS & COMPLIANCE

ESD safe DIN EN 61340-5-1

DESCRIPTION

EFS ESD FOOTRESTS

Sensitive workplaces require special solutions. The meychair ESD footrests adapt optimally to the requirements of an ESD workplace. All individual components are conductive. Conductive surfaces and materials provide reliable protection against uncontrolled electrostatic discharge at the workplace. For your safety, every footrest is individually measured for conductivity to DIN EN 61340-5-1 before shipping and a test report is issued. This report is supplied with the footrest. The gas-spring height adjustment lets you set the footrest height easily and conveniently with your foot.

STANDARD FEATURES AT A GLANCE

- Foot plate height- and tilt-adjustable
- Foot surface of non-slip plastic, with grooves
- Steel frame

TECHNICAL DATA

Foot plate: plastic, with studs, non-slip, movable, adjustable in tilt and height

Plate dimensions: depth 320 mm x width 420 mm

Frame dimensions: depth 360 mm x width 500 mm

Tilt adjustment: 0° - 30°

Height adjustment: by gas spring, released at the push of a button

Adjustment range: 110 - 320 mm
