

Bernstein 9-900-0773-1. Clamping jaw 100 mm steel nickel-plated for 9-290 (PAIR)

Item no. **BS-9-900-0773-1**Manufacturer **Bernstein**EAN **4250838522489**

Clamping jaw 100 mm steel nickel-plated for 9-290 (PAIR)

TECHNICAL DATA

HS-Code **82057000**Weight **0.0099 kg**

DESCRIPTION

- usable on both side (turnable)
- smooth surface for scratch-sensitive parts and surfaces
- grooves for pipe clamping and round solid material
- with stepped edge for square material or thick sheets
- jaw width 100 mm
- more protective jaws search field input 9-900
- Nickel-plated steel
- Dimensions 100 x 30 x 6 mm
- weight 83 g

AREA OF APPLICATION

The clamping jaws for tight screwing fits perfectly and can be used on both sides (turning option). The smooth surface protects sensitive surfaces. The other side solves difficult clamping problems with longitudinal and transverse grooves. This means that round objects such as pipes or solid rods can also be securely clamped.

GENERAL INFORMATION

Product fits to our SPANNFIX 9-290 the multifunctional vice with a flexible head and many possible applications. By using a high-quality ball joint, the head of the SPANNFIX can be tilted and fixed in

any direction and offers optimum hold in any position. With the help of an adjusting screw at the lower seat of the ball, the ball mobility can be individually adjusted. The ball is held and released with a simple lever movement. Long service life is guaranteed by the high-quality, the powder-coated cast aluminium and the surface-finished steel parts!
