

Bernstein 2-601-5. Tweezers straight 125mm with protective lips tips insulated

Item no. BS-2-601-5

Manufacturer Bernstein

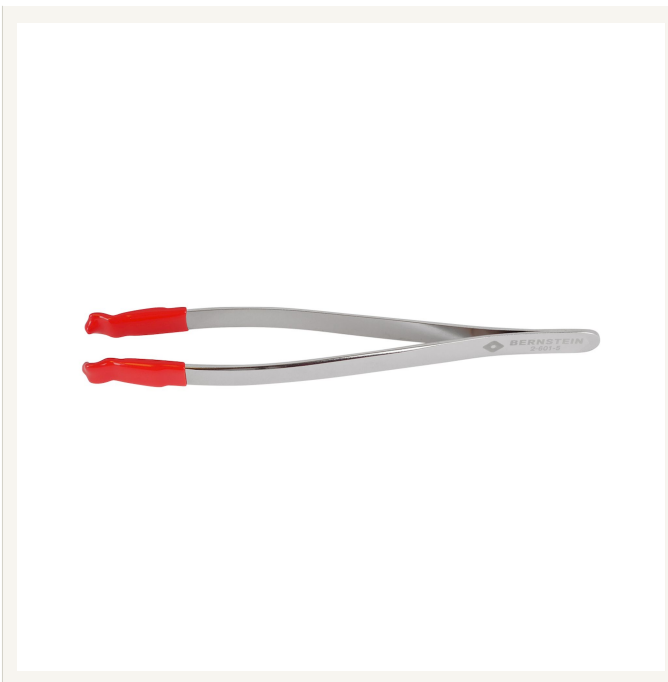

EAN 4250838530798

Tweezers straight 125mm with protective lips tips insulated

TECHNICAL DATA

HS-Code 82032000

Weight 0.0099 kg

DESCRIPTION

- ideal for holding optics (laser optics and optical components) lenses, mirrors or sensitive crystals
- 9 mm wide gripper jaws with lips, non-slip
- straight
- Opening approx. 20 mm
- material steel nickel plated
- PVC dipped insulated tips
- length 125 mm
- weight 21 g

AREA OF APPLICATION

Special coated tweezers can avoid scratches or fingerprints on optical surfaces. The optical components can be received and held on the frame in a non-slip and protected manner. The PVC dip-insulated tweezer tips prevent scratches, grease residues, dust residues on lenses, prisms, mirrors and other components to be protected.

TECHNICAL DESCRIPTION

Tool steel, corrosion protection by surface treatment, tips PVC dip insulated.
