

Bernstein 6-984-L. screwdriver POWERline Torx T9 with bore-hole

Item no. BS-6-984-L

Manufacturer Bernstein

EAN 4250838508810

screwdriver POWERline TORX T9 with bore-hole

TECHNICAL DATA

HS-Code	82054000
Weight	0.0099 kg

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

- 100% Made in Germany
- 2-component plastic handle ergonomically shaped non-slip impact resistant
- blade length 75 mm
- blade Ø 4 mm
- blade T9 (2.48 mm)
- material chrome vanadium molybdenum steel HRC 56-58
- blade matt chrome plated, tip burnished
- length 175 mm
- weight 29 g

AREA OF APPLICATION

BERNSTEIN Quality TORX Screwdriver 100% Made in Germany. For the professional user as well as for the hobby craftsman a durable hand tool. The chrome-plated blade is made of a high quality chrome vanadium steel and hardened over its entire length. The tip is burnished for perfect dimensional stability and to avoid chrome chips. The ergonomically shaped multi-component handle is slip-proof, impact-resistant and has a practical hanging hole for your workbench.

TECHNICAL DESCRIPTION

The quality is particularly evident in the manufacturing process of the blade. This is clamped in the quality test in a torque test rig and twisted to smooth breakage, this has to be done according to DIN in a very specific Newton meters range. Only a smooth break is safe! Inferior products can splinter or crack, which can be extremely dangerous.

GENERAL INFORMATION

The screwdriver POWER series covers the most common screwdriver applications. The various types of screw heads can be operated with the ESD screwdriver solutions especially for the requirements of electronics.
