Item no. WH-43894

Manufacturer Wiha

EAN 4010995438944

The Wiha terminal actuation tool SoftFinish® features a 40° curved blade (3.0 x 0.5 mm, 70 mm visible length) for operating spring clamps and opening pull clamps on force-controlled terminal strips. The blade stays locked in the open terminal, freeing both hands to guide the cable. The SoftFinish® handle ensures comfortable grip during continuous use.

DESCRIPTION

Working with spring terminals in cramped distribution boxes is demanding: a straight screwdriver blocks the view of the terminal and ties up one hand. The Wiha curved screwdriver solves this with a 40° curved blade that provides an unobstructed line of sight and stays engaged in the terminal once inserted, leaving both hands free for the cable. The blade is made from chrome-vanadium-molybdenum steel, through-hardened and chrome-plated for lasting durability. The SoftFinish® handle with its skin-friendly material and ergonomic geometry reduces strain in extended use.

BENEFITS

- 40° curved blade gives unobstructed view of the terminal and improved access in confined spaces
- Blade stays in the open terminal - both hands free for cable insertion
- Chrome-vanadium-molybdenum steel, through-hardened, chrome-plated - durable for permanent use
- SoftFinish® handle for comfortable grip that is gentle on hands and muscles (handle diameter 23 mm)
