

L-key with key handle Hex black oxidised 2.5 mm - Wiha 00896

Item no. WH-00896

Manufacturer Wiha

EAN 4010995008963

The Wiha 331 hex L-key with key handle provides reliable high torque transfer for small hex fasteners. The 2.5 mm blade is made from through-hardened chrome-vanadium steel with a black oxidised finish. Particularly suited to replacing indexable inserts on milling heads.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Poland
HS-Code	82054000
Weight	0.008 kg

DESCRIPTION

The Wiha 331 L-key with key handle combines a 2.5 mm hex blade with the Wiha key handle for precise tightening of small fasteners at high torque. The 60 mm visible blade length and 95 x 40 x 8 mm overall dimensions make it a versatile tool for precision engineering and machine construction.

BENEFITS

- Key handle design enables high torque transfer with minimal effort
- Through-hardened chrome-vanadium steel blade for long service life
- Black oxidised finish provides corrosion protection
- Compact format (95 x 40 x 8 mm) for restricted access points

TECHNICAL DATA

- Internal hexagon: 2.5 mm
- Visible blade length: 60 mm
- Overall length: 95 mm
- Handle width: 40 mm
- Material: chrome-vanadium steel, through-hardened, bronzed

APPLICATIONS

For high torque transfer with small screws, especially when replacing indexable inserts on milling heads. Country of origin: Poland (POL), customs tariff no. 82054000.
