

L-key with T-handle Hexagon 8 mm, 350 mm blade - Wiha 00931

Item no. WH-00931

Manufacturer Wiha

EAN 4010995009311

T-handle L-key for internal hexagon screws 8 mm with reinforced overlength blade (350 mm). The Wiha Classic T-handle allows high torque transfer with minimal fatigue even at very deep screw positions. Chrome-vanadium steel, through hardened and brilliant nickel-plated.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Poland
HS-Code	82054000
Weight	0.2 kg

DESCRIPTION

The Wiha L-key 00931 with T-handle is the longest variant in the 334 series for 8 mm. With a 350 mm blade it reaches fasteners deep inside bores or behind panels where shorter tools cannot. The reinforced blade offsets the additional bending stress at this length.

BENEFITS

- 350 mm blade for very deep or shielded fastener heads
- Reinforced blade construction for torsional and bending stiffness
- Classic T-handle, 32 mm diameter, for fatigue-free torque input
- Chrome-vanadium steel, through hardened for long service life
- Brilliant nickel-plated finish resists corrosion and simplifies cleaning

TECHNICAL DATA

- Internal hexagon: 8 mm
- Handle diameter: 32 mm
- Handle width (T-handle): 100 mm
- Blade length: 350 mm
- Overall length: 382 mm
- Dimensions: 382 x 100 x 20 mm
- Weight: 200 g
- EAN: 4010995009311

APPLICATIONS

Suitable for assembly, maintenance and repair on machines where 8 mm internal hexagon screws sit deep inside the structure. Made in Poland, HS 82054000.
