

L-key Hex 5.0 mm black oxidised - Wiha 06365

Item no. WH-06365

Manufacturer Wiha

EAN 4010995063658

The Wiha 352B hex L-key with 5.0 mm key size is made from through-hardened, burnished chrome-vanadium steel. The L-shape with 163 mm total length and 33 mm short arm is well suited for M5 internal hex fasteners in trade and industrial applications. The black oxidised finish provides lasting corrosion protection.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
HS-Code	82041100
Weight	0.031 kg

STANDARDS & COMPLIANCE

ISO 2936

DESCRIPTION

The 352B L-key from Wiha in 5.0 mm key size is a reliable L-shaped tool for M5 internal hex fasteners, with long service life thanks to hardened chrome-vanadium steel construction.

BENEFITS

- Through-hardened, burnished chrome-vanadium steel - load-resistant and corrosion-protected
- 5.0 mm key size for widely used M5 fasteners
- L-shape: long arm (163 mm total) for sufficient torque, short arm (33 mm) for confined spaces
- Black oxidised surface for lasting corrosion protection

TECHNICAL DATA

- Key size (internal hex): 5.0 mm
- Overall length: 163 mm
- Short arm length: 33 mm
- Dimensions: 163 x 33 x 6 mm (L x W x D)
- Material: chrome-vanadium steel, through hardened, burnished
- Standard: based on ISO 2936L

APPLICATIONS

For M5 internal hex fasteners in mechanical engineering, trade, and general assembly. The short arm provides access to confined or partially concealed fastening positions.

Made in Germany. HS code 82041100.
