

L-key Hexagon 12.0 mm brilliant nickel-plated - Wiha 01212

Item no. WH-01212

Manufacturer Wiha

EAN 4010995012120

The Wiha L-key 352 in 12.0 mm hex size is made from through-hardened chrome-vanadium steel with a brilliant nickel-plated finish, delivering reliable torque transfer on internal hexagon screws. At 259 mm overall length with a 57 mm short arm, the L-shape lets you spin quickly on the long side and apply high torque on the short side. Based on ISO 2936L.

TECHNICAL DATA

Ausführungsklasse **TEC**

Country of Manufacture **China**

HS-Code **82041100**

Weight **0.281 kg**

STANDARDS & COMPLIANCE

ISO 2936

DESCRIPTION

The Wiha L-key 352 for 12.0 mm internal hexagon screws is machined from chrome-vanadium steel, through hardened and nickel-plated for lasting corrosion resistance. Its L-shape provides two operating modes in a single compact tool.

BENEFITS

- Through-hardened chrome-vanadium steel - high fatigue strength and break resistance
- Brilliant nickel-plated surface - corrosion resistant and easy to wipe clean
- L-shape with 57 mm short arm - high-torque tightening on the short side, fast spinning on the long side
- 12.0 mm hex size - fits standard M8 socket head cap screws
- Based on ISO 2936L - standardised dimensions for reliable fit

TECHNICAL DATA

- Internal hexagon: 12 mm
- Overall length: 259 mm
- Short arm length: 57 mm
- Product dimensions: 259 x 57 x 14 mm (L x W x D)

- Material: chrome-vanadium steel, nickel-plated
- Standard: based on ISO 2936L

APPLICATIONS

Suitable for M8 socket head cap screws in mechanical engineering, vehicle maintenance and industrial assembly. Use the long arm for rapid loosening and the short arm to achieve high tightening torques.

Country of origin: China. HS code: 82041100.
