

L-key Hexagonal Ball End Fluorescent 8.0 mm, Dark Blue - Wiha 41901

Item no. WH-41901

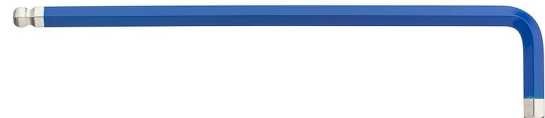

Manufacturer Wiha

EAN 4010995419011

The Wiha fluorescent dark blue hexagonal ball end L-key in 8.0 mm gives access to hard-to-reach fasteners and allows driving at angles up to 25° into horizontal, inclined or deep blind holes. The UV-luminescent paint makes the key visible in the dark with the Wiha UV flashlight, cutting down search time during machine maintenance.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Poland
HS-Code	82041100
Weight	0.099 kg

DESCRIPTION

Hexagonal ball end L-key in 8.0 mm with fluorescent dark blue finish. The ball end allows fastening at angles up to 25°, reducing effort on difficult-to-access fastening points. The luminescent paint enables retrieval with a UV flashlight and minimizes the risk of tools being left inside machinery.

BENEFITS

- Ball end allows driving at angles up to 25°
- Fluorescent dark blue for instant identification in a set
- UV-luminescent paint: visible in the dark with the Wiha UV flashlight
- Reduces the risk of tools being forgotten inside machines

TECHNICAL DATA

- Dimensions: 206 x 44 x 9 mm (overall length x width x depth)
- Internal hexagon: 8.0 mm
- Overall length: 206 mm
- Short blade length: 44 mm
- Colour: dark blue

APPLICATIONS

For fastening in hard-to-reach locations and driving into horizontal, inclined or deep tapped blind holes with an 8.0 mm hexagonal socket.

Made in Poland. HS code: 8204.11.00.
