

L-key with Flag Handle TORX® T6 Black Oxidised 35 mm - Wiha 03725

Item no. WH-03725

Manufacturer Wiha

EAN 4010995037253

The Wiha 370 L-key with flag handle delivers high torque precisely on TORX® T6 screws. The black-oxidised chrome-vanadium steel shank, 2 mm diameter, 35 mm long, is through-hardened. Especially suited for replacing indexable inserts on milling heads and precision mechanics applications.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Poland
HS-Code	82054000
Weight	0.002 kg

DESCRIPTION

For small TORX® T6 screws in machining and precision mechanics, the Wiha 370 L-key with flag handle offers the ideal combination of precision and torque transfer. The wide cross handle enables secure tightening with the required torque even on small screws.

BENEFITS

- High torque transfer through the wide flag handle on small T6 screws
- Through-hardened chrome-vanadium steel for lasting form fit in the screw profile
- Black oxidised surface protects against corrosion and reduces light reflections
- Compact dimensions 62 x 15 x 5 mm for confined installation situations

TECHNICAL DATA

- TORX®: T6
- Round blade diameter: 2 mm
- Handle diameter: 15 mm
- Length T-handle blade: 35 mm
- Overall length: 62 mm
- Material: chrome-vanadium steel, through hardened, black oxidised

APPLICATIONS

Used in machining for replacing indexable inserts, in precision mechanics, and wherever TORX® T6

screws in confined spaces must be tightened with increased torque.

Made in Poland. EAN: 4010995037253.
