

L-key with T-handle Hexagonal ball end 6.0 mm, nickel-plated - Wiha 04105

Item no. WH-04105

Manufacturer Wiha

EAN 4010995041052

The Wiha L-key 540 6.0 x 150 mm with Classic T-handle delivers high torque transfer with minimal effort on hard-to-reach screws. The chrome-vanadium steel ball end allows driving at angles up to 25°, significantly extending the tool's reach in confined installation spaces.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Poland
HS-Code	82054000
Weight	0.078 kg

DESCRIPTION

The Wiha 540 L-key with 6 mm hex blade and 150 mm blade length provides precise torque transfer even when access is restricted. The Wiha Classic T-handle with 100 mm width and 32 mm diameter supports comfortable work over extended fastening operations.

BENEFITS

- Ball end for angled driving up to 25° - reaches installed screws without repositioning
- Classic T-handle (100 mm width) for fatigue-free high-torque transfer
- Chrome-vanadium steel blade, through hardened and nickel-plated for corrosion protection
- Compact dimensions 183 x 98 x 19 mm for organised tool use

TECHNICAL DATA

- Internal hexagon: 6 mm
- Blade length: 150 mm
- Overall length: 182 mm
- Handle width: 100 mm
- Handle diameter: 32 mm
- Product dimensions: 183 x 98 x 19 mm (L x W x D)
- Material: Chrome-vanadium steel, nickel-plated

APPLICATIONS

For high torque on 6 mm internal hex screws in hard-to-reach locations in mechanical engineering and industrial assembly. Made in Poland (HS: 82054000).
