DESCRIPTION

Wiha Y bit Phillips PH3 25 mm: five identical bits in a compact cardboard box (110 x 50 x 25 mm) for fastening Phillips screws in Y-shaped configuration. The characteristic angle - not equal to 90 degrees between thread and head - demands a specific bit geometry that conventional cross bits cannot provide.

BENEFITS

- Patented extended torsion zone: 120x longer service life than Wiha standard bits
- Suitable for power tools and impact screwdrivers without dedicated impact bits
- Fluorescent colour coating: bits are easy to locate even in the dark using UV light
- 5 bits per box: high availability on the job, fewer supply interruptions
- Compliant with DIN ISO 8764-1, DIN 3126, ISO 1173, Style C6,3
