DESCRIPTION

The Wiha spanner bit 27066 provides access to larger 8 mm snake eye security screws that standard driver bits cannot engage. Its reduced, over-tightened profile fits the two circular holes in the screw head precisely, delivering torque without cam-out. Through-hardened chrome-vanadium steel body gives the durability expected from professional-grade security tooling.

BENEFITS

- Engages 8 mm snake eye security screws inaccessible to standard bits
- High-grade chrome-vanadium steel, through hardened for long service life
- Reduced, over-tightened profile for precise seating without cam-out
- 1/4" C6.3 drive: universally compatible with standard bit holders and power screwdrivers
