DESCRIPTION

The Wiha Bit Professional PH2 x 50 mm from the 7041-90202 series bridges the gap between standard and specialist lengths. Its 50 mm shaft reaches deeply positioned PH2 screws in housings and connectors without sacrificing the bit holder. The dust-repellent box protects the bits and displays contents at a glance with large symbols.

BENEFITS

- 50 mm length - twice the reach of a standard bit, accesses recessed PH2 fasteners
- Through-hardened chrome-vanadium steel: high torque resistance and extended service life
- Large symbols on the reusable dust-repellent box for instant identification
- Two bits per pack - replacement always on hand
