

Cable Cutter Classic 210 mm, Max. Cross-Section 60 mm², C70 Steel - Wiha 43541

Item no. WH-43541

Manufacturer Wiha

EAN 4010995435417

The Wiha Cable Cutter Classic 210 mm cuts copper and aluminium cables up to 60 mm² cleanly without crushing. The longer 210 mm length provides greater leverage and reduces hand effort on larger cross-sections. Specially ground C70 steel cutting edges, inductively hardened to approx. 58 HRC, stay sharp over extended use.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Vietnam
HS-Code	82032000
Weight	0.265 kg

DESCRIPTION

When cutting larger cable cross-sections up to 60 mm², the 210 mm version of the Classic cable cutter delivers a mechanical advantage over shorter models, reducing operator fatigue on repetitive cuts. The C70 tool steel edges with induction hardening keep the blade sharp through sustained daily use.

BENEFITS

- Crush-free cutting of copper and aluminium cables up to 60 mm²
- Longer 210 mm body for increased leverage and lower hand effort
- Induction hardening to approx. 58 HRC for long cutting edge life
- Safety stop prevents finger injuries after the cut
- Also suitable for stripping and removing cable sheathing

TECHNICAL DATA

- Overall length: 210 mm (8 1/4")
- Dimensions: 210 x 52 x 13 mm
- Max. cross-sectional area: 60 mm²
- Cutting force: 20
- Material: C70 tool steel, tempered
- Head shape: classic cutting form

APPLICATIONS

For copper and aluminium cables. Not for steel cables, wires or hard-drawn copper conductors.
Country of origin: Vietnam (VNM). HS code: 82032000.
