

Stripping tool self-rotating drag blade round cables 4-28 mm, 165 mm - Wiha 44618

Item no. WH-44618

Manufacturer Wiha

EAN 4010995446185

The Wiha stripping tool with self-rotating drag blade provides precise, fast stripping of all common round cables with diameters from 4 to 28 mm. The continuously adjustable cutting depth via an adjusting screw and the automatic changeover from round to longitudinal cutting eliminate time-consuming pre-adjustments.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
HS-Code	82119200
Weight	0.081 kg

DESCRIPTION

Round cables used in electrical installations come in a wide range of outer diameters. The Wiha Professional electric stripping tool covers the range from 4 to 28 mm with a single tool. The large handle diameter and self-rotating drag blade allow comfortable working without fatigue.

BENEFITS

- Diameter range 4-28 mm - covers the most common round cable cross sections
- Self-rotating drag blade switches automatically from round to longitudinal cut
- Continuously adjustable cutting depth via adjusting screw - no re-adjustment needed
- Self-tensioning holding clip for reliable cable routing
- Spare blade integrated into the handle
- Safety cap protects the hooked blade during transport and storage

TECHNICAL DATA

- Stripping range, diameter: 4-28 mm
- Overall length: 165 mm (6 1/2")
- Dimensions: 173 x 29 x 28 mm (L x W x D)

APPLICATIONS

For precise, fast and safe stripping of all common round cables during electrical system installation. The elongated handle enables precise control in confined spaces. Country of origin: Germany (DEU).

HS code: 82119200.
