Kein Produktbild

400 mm deep lower shelf for the Treston TED workbench. Comes with a rear lip to keep materials securely in place. Can be fitted with an optional PDH400 divider bracket.

TECHNICAL DATA

Country of Manufacture	Finland
HS-Code	94032080
Weight	0.0099 kg

DESCRIPTION

The LST900-49 is a 400 mm deep lower shelf for the Treston TED workbench. It adds storage space below the work surface and keeps frequently used materials within easy reach.

FEATURES

- Shelf depth: 400 mm
- Integrated rear lip prevents items from sliding off
- Versatile for a wide range of stored goods
- Can be extended with an optional PDH400 divider bracket

USE

Ideal for expanding TED workstations in assembly, laboratory and workshop settings where order and quick access to material matter.
