DESCRIPTION

The Treston Concept worktop is the work surface of the modular Concept workstation systems. This version measures 1000x600 mm (width x depth) and is coated on both sides with melamine (LPL, Low Pressure Laminate).

FEATURES

- Dimensions (width x depth): 1000x600 mm
- Surface: melamine-coated both sides (LPL)
- Easy-care, abrasion-resistant work surface
- Compatible with the Treston Concept system

APPLICATION

The LPL surface suits general assembly, packing and inspection workstations where a robust, easy-to-clean worktop is required.
