

Concept worktop ESD, 1000x750 mm - Treston TT10075-ESD

Item no. TR-TT10075-ESD

Manufacturer Treston

ESD worktop for Treston Concept workbenches, 1000x750 mm. The dissipative surface protects electronic components from electrostatic discharge. Fits Concept frames.

TECHNICAL DATA

Ausführungsklasse **ESD (antistatic)**Country of Manufacture **Finland**HS-Code **94039090**Weight **14.3 kg**

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The Concept worktop in ESD version completes Treston Concept frames into a full ESD workstation. The dissipative surface drains electrostatic charges in a controlled way, protecting sensitive electronic components.

TECHNICAL DATA

- **Dimensions (WxD):** 1000x750 mm
- **Version:** ESD (electrostatically dissipative)

APPLICATION

Three worktop options are available for the Concept frame: HPL, LPL and ESD. The ESD variant suits assembly, testing and repair in electronics manufacturing and all ESD protected areas.
