DESCRIPTION

The Treston Concept worktop is the work surface of the modular Concept workstation systems. This version measures 1200x750 mm (width x depth) and features a premium high-pressure laminate (HPL).

FEATURES

- Dimensions (width x depth): 1200x750 mm
- Surface: HP laminate (HPL)
- Particularly scratch-, impact- and abrasion-resistant
- Compatible with the Treston Concept system

APPLICATION

The HPL surface is recommended for heavily used assembly and inspection workstations that require an especially durable work surface.
