

Concept Worktop 1800x600 mm, ESD - Treston TT18060-ESD

Item no. TR-TT18060-ESD

Manufacturer Treston

ESD worktop for the Treston Concept system measuring 1800x600 mm. The dissipative surface reliably protects electronic components against electrostatic discharge. Ideal for ESD-protected workstations in electronics and assembly.

TECHNICAL DATA

Ausführungsklasse **ESD (antistatic)**

Country of Manufacture **Finland**

HS-Code **94039090**

Weight **20.6 kg**

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

CONCEPT WORKTOP 1800X600 MM IN ESD DESIGN

This worktop belongs to the modular Treston Concept workstation system and offers a particularly long 1800x600 mm working surface. The dissipative ESD surface drains electrostatic charges in a controlled manner, protecting sensitive electronic components during processing.

TECHNICAL DATA

Property	Value
Width x Depth	1800 x 600 mm
Version	ESD, dissipative
Weight	20.6 kg
System	Treston Concept

APPLICATIONS

- ESD-protected workstations in electronics manufacturing
- Assembly and testing of sensitive components
- Laboratory and repair areas with ESD requirements

As part of the Concept system, the worktop combines flexibly with other Treston modules.
