DESCRIPTION

The Treston TTSM15004-49 is an upper steel shelf for modular workbenches. It tilts in stages from 0 to 12.5° in 2.5° increments, creating an ergonomic surface for tools, bins or displays.

FEATURES

- Tiltable from 0 to 12.5° in 2.5° steps
- Fits module size M1500x400
- Includes a 30 mm high retaining edge that mounts at the front or rear
- Sturdy steel construction

TECHNICAL DATA

Feature	Value
Width x depth	1467 x 400 mm
Module size	M1500x400
Tilt	0 - 12.5°, in 2.5° steps
Max. load	80 kg
Weight	14 kg

APPLICATION

The shelf adds an inclined storage surface to Treston workbenches, improving access to frequently

used parts at the workstation.
