

cab 8911000. Profile rail PCB magazine / 1000mm

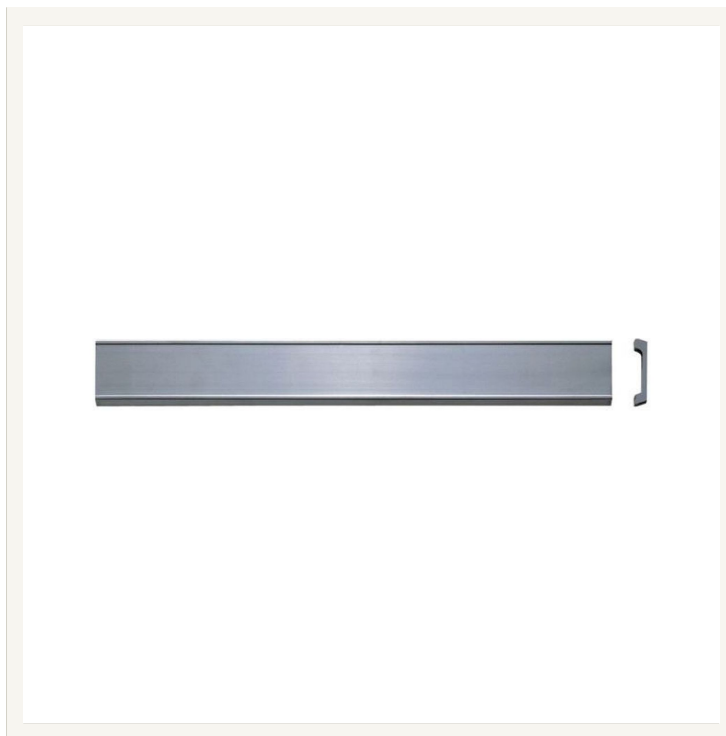

Item no. WL10762

Manufacturer cab

Profile rail PCB magazine / 1000mm

TECHNICAL DATA

Weight 0.1 kg

DESCRIPTION

The PCB holders can be assembled in both vertical and horizontal positions. The system is absolutely variable in width and can be mounted for all PCB sizes as required. For the various PCBs, 100, 180 and 300 mm high PCB holders are offered. With 32 guide grooves at 10 mm intervals, the PCB holders offer maximum packing density.

Safe guiding: The guide grooves are funnel-shaped at the beginning to ensure safe insertion of the PCBs. The glued-on positioning strips with yellow colour markings indicate the exact placement position and prevent PCBs from being inserted at an angle by hand.

- Length 1000 mm
- Weight: 0,45 kg

PRODUCT DETAILS

item number	WL10762
model	8911000
manufacturer	CAB
manufacturer item number	8911000
order unit	piece
ESD safe	no
