

Piston for 3 cc syringe barrel, low-viscosity media, neoprene, black - Nordson EFD 7015491

Item no. **WL11651**

Manufacturer **Nordson EFD**

With thin fluids in manual piston use, material easily creeps past the piston. This neoprene piston for 3 cc barrels seals exactly these low-viscosity fluids reliably. It keeps dispensing clean and controlled.

TECHNICAL DATA

Weight **0.1 kg**

DESCRIPTION

The neoprene piston for 3 cc syringe barrels is made for low-viscosity media in manual piston use and seals the barrel securely against backflow and leakage.

- For 3 cc barrel size
- Neoprene material matched to thin, low-viscosity media
- Reliable seal against material creeping past the piston

TECHNICAL DATA

Model	5109S-B / 7017763
Manufacturer part no.	7015491
Size	3 cc
Material	neoprene
Colour	black
Use	manual piston, low-viscosity media

Matched to 3 cc syringe barrels for manual dispensing of low-viscosity fluids.
