

Piston for 5 cc syringe barrel, low-viscosity media, neoprene, black - Nordson EFD 7017811

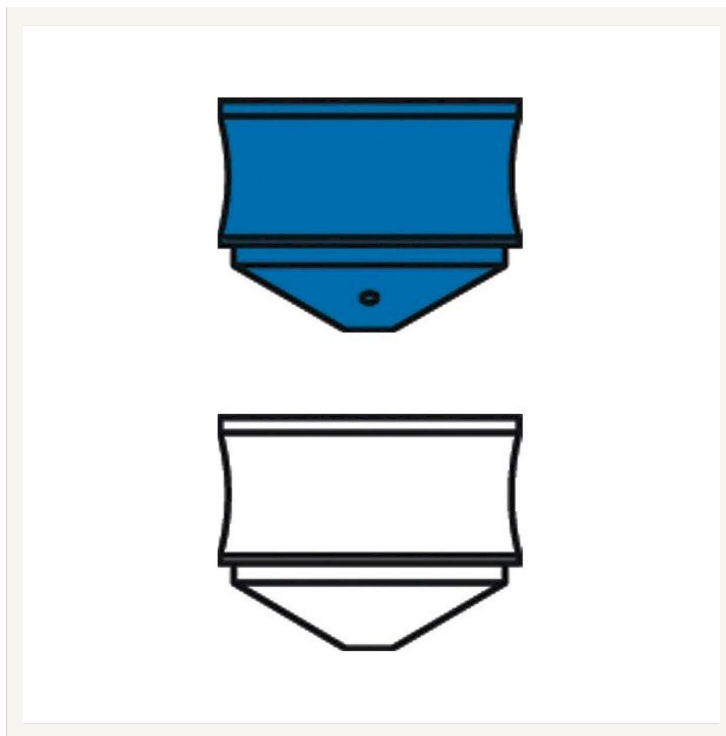

Item no. WL11659

Manufacturer Nordson EFD

With thin fluids in manual piston use, material easily creeps past the piston and drips. This neoprene piston for 5 cc barrels seals these low-viscosity fluids reliably. It keeps dispensing clean and controlled.

TECHNICAL DATA

Weight 0.1 kg

DESCRIPTION

The neoprene piston for 5 cc syringe barrels is made for low-viscosity media in manual piston use and seals the barrel securely against backflow and leakage.

- For 5 cc barrel size
- Neoprene material matched to thin, low-viscosity media
- Reliable seal against material creeping past the piston

TECHNICAL DATA

Model	5110S-B / 7015487
Manufacturer part no.	7017811
Size	5 cc
Material	neoprene
Colour	black
Use	manual piston, low-viscosity media

Matched to 5 cc syringe barrels for manual dispensing of low-viscosity fluids.
