

Foot pedal for AM6000, JT7000 and TE5000 stations - JBC 0964551

Item no. WL13148

Manufacturer JBC

Foot pedal for hands-free control of JBC hot-air and repair stations of the AM6000, JT7000 and TE5000 ranges. Keeps both hands free for the component and tweezers.

TECHNICAL DATA

Country of Manufacture Spain

HS-Code 85159080900

Weight 0.1 kg

DESCRIPTION

Rework and hot-air tasks often require both hands to hold and position the component. The JBC 0964551 foot pedal starts and stops the process by foot, so the operator can work hands-free and guide the part safely.

BENEFITS

- Hands-free process triggering, both hands stay on the workpiece
- Robust pedal body for continuous bench use
- Direct connection to compatible JBC stations without an extra device
- Improves repeatability and ergonomics in the rework workflow

TECHNICAL DATA

Manufacturer	JBC
Model	0964551
Manufacturer item no.	0964551
Item no.	WL13148
Type	foot pedal

APPLICATIONS

Hands-free control of hot-air, desoldering and repair operations in electronics manufacturing and rework.

COMPATIBILITY AND SCOPE OF DELIVERY

Suitable for JBC AM6000, AM6500, AM6800, JT7000, JT7700, TE5000 and TE5400. Supplied as a single foot pedal.

Country of origin Spain. RoHS compliant.
