

Coaxial connection cable for desoldering gun MX-DS1 - Metcal MX-RM8E

Item no. WL13710

Manufacturer Metcal

The connection cable carries the high frequency power from the power unit to the desoldering gun and is a typical wear part in shift operation. This MX-RM8E coaxial cable links the Metcal MX-DS1 to its power unit. Replacing it brings an intermittent bench back into service quickly.

TECHNICAL DATA

Weight 0.1 kg

DESCRIPTION

If heating power at the desoldering gun drops out intermittently, the connection cable is often damaged at the strain relief. The MX-RM8E is the coaxial connection cable for the Metcal MX-DS1 desoldering gun.

BENEFITS

- Coaxial design for transferring the high frequency power to the hand piece
- Original spare part with a matching connector, no adaptation needed
- Quick replacement returns a failed desoldering bench to service
- Flexible cable routing for low fatigue work

TECHNICAL DATA

Item number	WL13710
Model	MX-RM8E
Manufacturer	Metcal
Manufacturer item number	MX-RM8E
Design	Coaxial connection cable
Weight	0.1 kg

APPLICATIONS

Repair work and spare part stock for desoldering benches in electronics manufacturing, repair and

service.

COMPATIBILITY AND SCOPE OF DELIVERY

Suitable for the Metcal MX-DS1 desoldering gun. Delivery includes the coaxial connection cable.
