

ESD disposable heel strap, self-adhesive, conductive - Warmbier WL14033

Item no. WL14033**Manufacturer Warmbier**

Self-adhesive disposable ESD heel strap for personnel grounding in ESD protected areas. For ordinary flat-heel street shoes, conductive fabric, typical bleeder resistance 10^6 ohm.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Colour	Black
Norm	IEC 61340-5-1, DIN EN 61340-5-1
Sales unit	VPE 100 Stück
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe **DIN EN 61340-5-1** **IEC 61340-5-1**

DESCRIPTION

The self-adhesive disposable ESD heel strap provides quick personnel grounding for visitors and temporary staff in ESD protected areas and drains charge through the dissipative floor.

BENEFITS

- Self-adhesive, ready to use on the shoe with no preparation
- Conductive fabric for reliable charge dissipation
- Suited to ordinary flat-heel street shoes

TECHNICAL DATA

- Model: 2560.894
- Colour: black/yellow
- Material: conductive fabric, self-adhesive
- Typical bleeder resistance: 10^6 ohm
- Selling unit: pack of 100

APPLICATION

Personnel grounding for visitors, service staff and short-term use in electronics manufacturing and at EPA entrances. Wear on both shoes for reliable dissipation.

STANDARDS AND COMPLIANCE

Suitable for personnel grounding systems to DIN EN 61340-5-1 (IEC 61340-5-1).
