

Combination filter cassette complete with metal shaft for series 150 to 250 - ULT 4-00032

Item no. WL15444

Manufacturer ULT

The complete combination filter cassette bundles every filter stage for the ULT extraction units LRA 150 to 250 and LAS 150 to 250 into one assembly, from the expanded metal filter through the M5 and F7 prefilter mats to the H13A filter cassette. It is the answer when the whole filter train rather than a single wear part needs renewing. The metal shaft holds the change frames and keeps the stages cleanly separated.

TECHNICAL DATA

Weight 0.1 kg

DESCRIPTION

After long service intervals it rarely pays to buy back one stage at a time. The combination filter cassette 02.1.033 renews the entire filter train of the 150 to 250 series in one go, including the metal shaft and all individual elements.

BENEFITS

- Complete filter train in one assembly, no hunting for individual parts
- Contains the coarse stage, the M5 and F7 prefilter mats and the H13A filter cassette
- Metal shaft as a solid mount for the change frames
- For LRA 150, 210, 220 and 250 as well as LAS 150, 220 and 250
- Every individual element can also be reordered separately later

TECHNICAL DATA

Item number	WL15444
Model	02.1.033
Manufacturer	ULT
Manufacturer item number	02.1.033
Order unit	Piece

Filter type	Main filter
Version	Metal shaft
Device series	LRA 150, LRA 210, LRA 220, LRA 250
Weight	0.1 kg

APPLICATIONS

In demand during a full overhaul of an extraction unit, when commissioning a second hand device, or after a process change that overloaded the previous filter configuration. It also makes sense as a spare cassette so an extraction point can be released again immediately after a fault.

COMPATIBILITY AND SCOPE OF DELIVERY

For the extraction units LRA 150, 210, 220 and 250 as well as LAS 150, 220 and 250. The individual elements included are the expanded metal filter ULT 02.0.006, the change frame ULT 02.0.007, the change frame with filter mat set M5/F7 ULT 02.1.030, the M5 filter mat ULT 02.0.009, the F7 filter mat ULT 02.0.010, the M5/F7 filter mats ULT 02.0.037 and the combination filter cassette H13A ULT 02.1.034.
