

Alsident 1-5021. Extraction tip DN50, length 210 mm, aluminium

Item no. WL15450

Manufacturer Alsident

Extraction tip DN50, length 210 mm, aluminium

TECHNICAL DATA

Weight

0.1 kg

DESCRIPTION

- Suction tip for concentrated sources of contamination
- High efficiency, as the suction tip can be positioned directly at the source without hindering the work process
- Elaborately processed cantilevers of the suction tip to increase the efficiency of collection

PRODUCT DETAILS

item number	WL15450
model	1-5021
manufacturer	ALSIDENT
manufacturer item number	1-5021
length	210 mm
order unit	piece
material	Anodised aluminium tube - layer thickness 10μ
diameter of tube	50 mm
device series	WSA-10LR, WSA-20LR, WSA-5LR
