

Alsident 1-5021-6. ESD extraction tip DN50, length 210 mm, aluminium

Item no. **WL15451**

Manufacturer **Alsident**

ESD extraction tip DN50, length 210 mm, aluminium

TECHNICAL DATA

Ausführungsklasse **ESD (antistatic)**

Weight **0.1 kg**

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

- Suction tip for concentrated sources of contamination
- High efficiency, as the suction tip can be positioned directly at the source without hindering the work process
- Elaborately processed cantilevers of the suction tip to increase the efficiency of collection

PRODUCT DETAILS

item number	WL15451
model	1-5021-6
manufacturer	ALSIDENT
manufacturer item number	1-5021-6
length	210 mm
order unit	piece
colour	black
material	Pipe made of chromated TCP aluminium to ensure permanent conductivity

diameter of tube	50 mm
device series	WSA-10LR, WSA-20LR, WSA-5LR
ESD safe	yes
