STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

The antistatic replacement handle brings worn DS22 and DS80 desoldering irons back to a safe working condition. The dissipative design drains static charges in a controlled way and protects ESD-sensitive components during desoldering.

BENEFITS

- Antistatic, dissipative design for ESD-safe work
- Original replacement handle for DS22 and DS80
- Quick repair instead of replacing the complete desoldering iron
