

Hot-Air Round Nozzle NR-10, Ø 7 mm, with Preheating Plate - Weller NR-10

Item no. WL16661

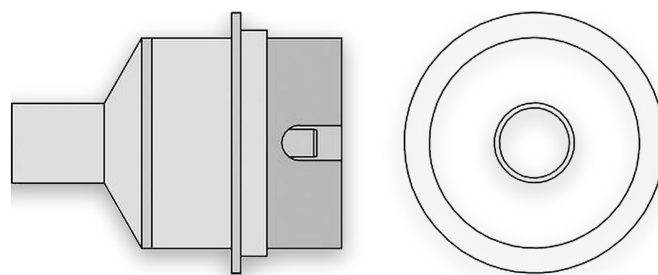

Manufacturer Weller

Round nozzle Ø 7 mm for targeted hot-air soldering of medium components. The integrated preheating plate brings the part up to temperature by contact heat, while air outlet slots (approx. 1 mm wide) heat the joints evenly. Fits HAP 2, HAP 3 and HAP 3000.

TECHNICAL DATA

Country of Manufacture **Germany**

HS-Code **85159080900**

Weight **0.1 kg**

DESCRIPTION

The NR-10 round nozzle focuses the hot-air flow of your Weller hot-air iron onto round or compact components with a nozzle diameter of 7 mm. An integrated preheating plate adds contact heat to warm the component from below while the hot air reaches the solder joints.

BENEFITS

- 7 mm nozzle diameter for medium round components
- Integrated preheating plate for gentle contact-heat preheating
- Ring of air outlet slots (approx. 1 mm) for even heat distribution
- Without vacuum

TECHNICAL DATA

Model	NR-10
Manufacturer item no.	T0058736870N
Manufacturer	Weller
Product series	NR hot-air nozzles
Nozzle diameter	7 mm
Tip shape	Round nozzle
Suitable handpiece	HAP 2, HAP 3, HAP 3000

Vacuum

none

Country of origin

Germany

APPLICATIONS

- Soldering and desoldering of round through-hole and SMD components
- PCB repair and rework

COMPATIBILITY

Fits the Weller hot-air irons HAP 2, HAP 3 and HAP 3000.

Country of origin: Germany.
