DESCRIPTION

The PT AA9 soldering tip is a genuine Magnastat replacement tip for the Weller TCP/FE system. Magnetic temperature control keeps the joint at a fixed 480 °C without external electronics, so the bevelled round, 1.6 mm tip delivers repeatable soldering results.

Benefits

- Fixed 480 °C working temperature via the Magnastat principle, no manual setting.
- Bevelled round shape at 1.6 mm width for focused heat transfer.
- Drop-in replacement for worn tips of the same series.
