DESCRIPTION

- Side cutter, which was developed in the course of the ERGO™ process
- ISO 5749
- Finish: chrome-plated, rust protection treated
- Material: High performance steel alloy
- ERGO™ handles with 2-component material, thermoplastic surface on hard polypropylene for optimum grip
- Induction-hardened cutting edges
- Progressive cutting: the cutting radius runs along the edges to cut hard materials like piano wire close to the joint and soft materials like copper and plastic insulated wires at the tip
- Bolted connection that ensures excellent cutting performance and accuracy of fit of the cutting edges
- Distance between joint and cutting edge reduced for maximum cutting capacity with small opening width of the handle
- Slim, rounded jaws for improved access to hard-to-reach areas
- Patented opening spring integrated in the handle with on/off function
- IP = Industrial packaging
