DESCRIPTION

The CSF-Q SMD desoldering head is the original Weller part for heating all of a component's leads at once. The 12,7 x 12,7 mm soldering area surrounds the component so it can be lifted off in a single step once the solder melts.

BENEFITS

- Simultaneous desoldering of all leads in one step
- 12,7 x 12,7 mm soldering area matched to the component size
- Original Weller fit for the DS desoldering irons
