

FE adapter kit for solder fume extraction at the iron, for AP130/AP250 - JBC F1204

Item no. WL19693

Manufacturer JBC

Adapter kit for solder fume extraction directly at the soldering iron, complete with hose and clips. Suitable for AP130 and AP250. A suction pump and filter are required separately.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Country of Manufacture	Spain
HS-Code	85159080900
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

Solder fume is created right at the joint and should be extracted there before it loads the workplace. This FE adapter kit takes extraction directly to the soldering iron and is supplied complete with hose and clips. It suits the JBC AP130 and AP250 handpieces. A suction pump and a filter are required in addition.

BENEFITS

- Solder fume extraction directly at the iron rather than only the room
- Complete with hose and clips for immediate fitting
- Suitable for the AP130 and AP250 handpieces
- Improves air quality at the ESD soldering workbench
