

Techspray 2211-8SQ. Solder mask WonderMASK P, 237 ml

Item no. WL19954

Manufacturer Techspray

Solder mask WonderMASK P, 237 ml

TECHNICAL DATA

Weight 0.1 kg

DESCRIPTION

- without ammonia
- low-odour, removable mask
- dries quickly and withstands high lead-free process temperatures (up to 343°C)
- Easy to remove
- Suitable for conformal coating masking: In a conformal coating, dip or spray process, WonderMASK can be used to cover connectors and other components and areas that are not to be coated.
- suitable as temporary component adhesive for bonding components to double-sided printed circuit boards
- Curing indicator - darkens as it cures
- compatible with gold and copper cables
