DESCRIPTION

When a JBC Classic series solder pistol loses heating power or fails, the 553842 heating element repairs it instead of replacing the whole tool. The element delivers 60 W at 24 V and suits pistols equivalent to the 55N.

BENEFITS

- 60 W output restores the pistol's full heat-up speed
- 24 V operating voltage matched to the Classic series
- Repair instead of buying a complete new solder pistol
- Fits tools equivalent to the 55N
