

ESD wrist strap, metal links, black, 10 mm snap fastener - Warmbier 2052.750.5.10

Item no. WL20489

Manufacturer Warmbier

ESD wrist strap of black metal links with an insulating epoxy-resin coating on the outer side and a 10 mm snap fastener. The fold-out buckle fits any wrist, and together with a coil cord it grounds the wearer safely inside the EPA. Elastic and anti-allergenic.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Colour	Black
Norm	IEC 61340-5-1
Sales unit	1 Stück
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

The Warmbier ESD wrist strap grounds operators reliably inside the ESD protected area (EPA) and protects sensitive electronic components. The elastic metal links contact the skin conductively on the inside, while the outer side carries an insulating epoxy-resin coating.

BENEFITS

- Black metal links, elastic and durable
- Outer side with insulating epoxy-resin coating
- Anti-allergenic and skin-friendly
- 10 mm snap fastener to connect a coil cord

TECHNICAL DATA

- Material: metal links with epoxy-resin coating (outer)
- Colour: black
- Connector: 10 mm snap fastener
- Typical resistance: $R < 1 \times 10^3 \text{ ohm}$ (inner side), $R > 1 \times 10^9 \text{ ohm}$ (outer side)
- Selling unit: 1 piece

APPLICATIONS

For personnel grounding in the EPA during assembly, repair and inspection of electronic boards. A coil cord with an integrated 1 MOhm resistor is required for operation.

STANDARDS

Designed for ESD workplaces to IEC 61340-5-1.
