

No Clean flux pen, 11.5 ml, precise dosing - Techspray 2507-N

Item no. WL20806

Manufacturer Techspray

Pen for applying No Clean flux with precise dosing. Ideal for placing flux exactly on pads and component leads before soldering or rework.

TECHNICAL DATA

Country of Manufacture	United States
HS-Code	38101000
Weight	0.1 kg

DESCRIPTION

For targeted application of No Clean flux: the Techspray 2507-N dispenses flux through a pen tip so you can wet individual pads, pins and joints before soldering or rework. The 11.5 ml cartridge lasts for many applications.

BENEFITS

- Applies No Clean flux exactly where needed
- Pen format for controlled dosing without excess
- Suited to soldering and rework on individual joints

TECHNICAL DATA

Manufacturer part no.	2507-N
Type	flux pen, No Clean
Content	11.5 ml
Packaging	cartridge
Order unit	piece

APPLICATIONS

- Applying flux before touch-up soldering

- Preparing pads and pins during rework

COMPATIBILITY AND SCOPE OF SUPPLY

Supplied as one pen (cartridge) with 11.5 ml of No Clean flux. Made in the USA.
