

ESD earthing cable 10 mm snap to banana plug, 3 m, black - Warmbier 2250765

Item no. WL20868

Manufacturer Warmbier

ESD earthing lead that drains static charge from table and floor mats to the common ground point. Connection 10 mm snap to banana plug, 3 m length, with 1 MOhm safety resistor.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Colour	Black
Norm	IEC 61340-5-1
Sales unit	1 Stück
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1 EN 61340-5-1

DESCRIPTION

This Warmbier earthing lead ties ESD table and floor mats to your common earthing point and drains static charge in a controlled way. The 3 m length gives extra reach to the earthing point.

BENEFITS

- Reliable drain of static charge from ESD mats
- 1 MOhm safety resistor for a controlled discharge current
- 3 m reach for distant earthing points

TECHNICAL DATA

- Connection: 10 mm snap to banana plug
- Length: 3 m
- Typical leakage resistance: 1 MOhm safety resistor
- Colour: black
- Selling unit: 1 piece

APPLICATION

For grounding ESD bench mats and conductive floor coverings in electronics manufacturing, assembly and test.

STANDARDS

Suitable for building EPA areas to IEC 61340-5-1 and EN 61340-5-1.
