

Soldering iron set with direct fume extraction, 80 W, 50-450°C - Weller FE 75 Set

Item no. WL21989

Manufacturer Weller

FE 75 soldering iron set with integrated direct fume extraction and Silver Line heating technology, 80 W at 24 V and just 10 s heat-up. Supplied complete with LT B soldering tip and KH 20 safety rest.

TECHNICAL DATA

Ausführungsklasse **ESD (antistatic)**

Country of Manufacture **Germany**

HS-Code **85151990000**

Weight **0.1 kg**

DESCRIPTION

The FE 75 Set pairs the FE 75 soldering iron with integrated direct fume extraction that captures solder smoke right at the joint. Silver Line heating technology delivers a heat-up time of about 10 seconds and stable temperatures across 50-450°C.

KEY BENEFITS

- Integrated direct extraction removes solder fumes at the joint
- Silver Line heating technology for roughly 10 s heat-up
- 80 W at 24 V for fast work on SMD and through-hole joints
- Complete set with LT B tip and KH 20 safety rest

TECHNICAL DATA

Model	FE 75 Set
Manufacturer item no.	T0053315199N
Product series	Direct extraction
Power	80 W
Voltage	24 V
Heat-up time	10 s
Temperature range	50-450°C / 150-850°F

Handle type	Soldering iron
Tip type	HPB
Suitable tips	LT
Included tip	LT B
Included rest	KH 20
Included iron	FE 75

APPLICATIONS

- Manual soldering of electronic assemblies with direct fume capture
- Workstations requiring clean breathing air

COMPATIBILITY & SCOPE OF DELIVERY

Compatible with control units PU 81, PUD 81, PUD 81i, PU WAD 101, PUD 121, PU WAD 101IG, PUD 151, WD 1, WD 1M, WR 2, WR 3M and WR 3ME. Scope of delivery: FE 75 soldering iron, LT B tip, KH 20 safety rest.

Made in Germany. RoHS compliant.
