Manufacturer Eschenbach

Flashlight magnifier mobilux LED, asphär. 3,5x, 10 dpt., D=75x50 mm

TECHNICAL DATA

Weight

0.1 kg

DESCRIPTION

The mobilux LED flashlight magnifier from Eschenbach is particularly suitable for reading small print. It convinces in its easy handling and also has a large, easy to use light switch and an eyelet for a lanyard. The particularly scratch-resistant lens ensures high visual comfort, adjustable in 3 different light colours via a filter. Simplified battery change. Incl. case to attach to the lens.

- Aspherical PXM® light lens cera-tec® coated for sharp-edged, distortion-free imaging
- Easy battery replacement thanks to easy-to-operate battery cover and clearly defined battery position thanks to contact springs
- Improved comfort with lanyard eyelet
- The most suitable colour temperature can be pre-set using the 2 attachable filters provided.
- A third, attachable transparent filter bundles the light and increases the luminous intensity by up to 40%.
- No lamp change required
- The LED lighting used by Eschenbach Optik has a service life of approx. 50,000 hours.
- Up to 10x longer battery life than with a conventional light source
- Voltage control via step-up converter, thus constant illumination even at voltage drop due to low battery level
