

Complete ESD suction hose for CONVAC vacuum cleaner, 2.5 m - Warmbier 7360.VAC.220107

Item no. WL22408

Manufacturer Warmbier

Complete ESD suction hose, 2.5 m long, for CONVAC ESD vacuum cleaners. Carries ESD marking and a low resistance to earth for safe vacuuming inside the EPA.

TECHNICAL DATA

Ausführungsklasse **ESD (antistatic)**Norm **IEC 61340-5-1**Sales unit **1 Stück**Weight **0.1 kg**

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

Complete ESD suction hose as a replacement or accessory part for ESD vacuum cleaners of the CONVAC range. The hose dissipates electrostatic charges safely and carries the required ESD marking, so no charge builds up while vacuuming inside the electrostatic protected area (EPA).

BENEFITS

- Dissipative hose with ESD marking
- Complete unit, ready to use
- Prevents electrostatic charge while vacuuming

TECHNICAL DATA

- Length: 2,500 mm (2.5 m)
- typical resistance to earth: 10^4 to 10^5 ohm
- suitable for: CONVAC ESD vacuum cleaners
- Manufacturer no.: 7360.VAC.220107
- Selling unit: 1 piece

APPLICATION

For ESD safe vacuuming in electronics manufacturing, cleanrooms and EPA areas.

STANDARDS AND COMPLIANCE

Suitable for use in EPA areas to IEC 61340-5-1.
